

**Looking for
new ways
to drive
down costs?
Improve
business
processes?
Strengthen
your
performance?**

Look to Greentree for the "edge" you need.

The "edge" we offer is the one that makes you more competitive. Not just with other companies, but with last year's or last quarter's performance. And on-target, or ahead, of this year's or this month's projections.

We offer a solutions-focused, business "edge" that keeps projects and programs on target. Or one that reduces process redundancies. Or one that improves the flow and use of information in your organization. Or one that helps you get, or keep, a healthy bottom line.

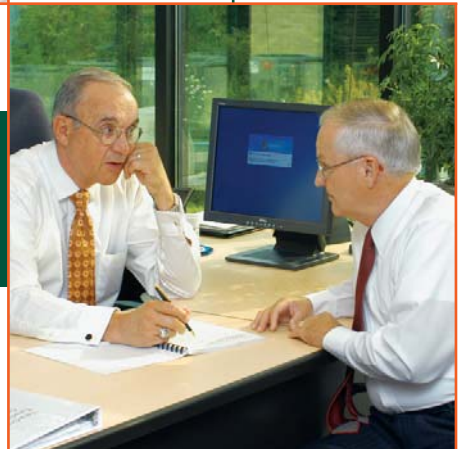

If you would like to know more about our services, our competitive-edge solutions, or our experience with the DoD and private sector clients, please contact us today. Or visit us at www.greentreegroup.com.

Our core competencies include business-based IT Solutions, value-added Program Management Solutions, and professional, cost-effective Financial Management Solutions.
